

**SR Asia** is an international ISO 9000 certified not-for-profit organization registered in **2012** with a vision of working for Sustainable Asia. The founders are subject experts and certified on subjects by **APO Japan, CBI the Netherlands Govt.** The ambition of the organization is to promote Responsible Business Conduct (**RBG**) and Sustainable Development Goals (**SDGs**) by involving private sectors and government. The activities of SR Asia focus on two major operational frameworks: **(1) Innovation Development and (2) Knowledge Management.**

An increased emphasis on governance, stricter monitoring and reporting obligations requires companies to be more disciplined and strategic in their approach. Every company should evaluate its CSR programme through the lens of efficient governance, alignment with its core purpose and values, efficient structure to facilitate implementation, credible partners for delivery on the ground, robust monitoring, evaluation and reporting frameworks. Companies are expected to develop a sustainable CSR roadmap to help ensure both compliance and social relevance with the Act. This can help entail undertaking CSR in a programme mode with an objective to enhance the programme's impact, while ensuring compliance with CSR Rules.

## Why SR Asia

SR ASIA in India has worked and advised several clients across sectors and industries. We have contributed extensively in the CSR space as well, helping clients articulate their social investment vision and effectively translating that into a thorough and sustainable CSR approach. Our expertise and thorough understanding of CSR norms has enabled us to advise and deliver quality projects with maximized impact. We are a member of **UNGC, IPLA Japan, and Confederation of Indian Industry (CII)** No.N7559P and the **Alumni of the Asian Productivity Organization Japan.**
